ALPHA FIRE COMPANY

Do More! Be More! Become An Alpha Volunteer Fire Police Officer!

Commitment. Character. Skills For Life. What Can Alpha Help You Develop?

Did you ever sit at home and hear the wail of sirens and dream of being one of those first responders heading to an emergency scene? Do you have a desire to do more for your community and be a part of something larger than yourself? Then you should be an Alpha Fire Company Volunteer.

Business Owners. Nine-To-Fivers. Military Members. College Students. Recent Grads. Residents...

The Alpha Volunteer Fire Company is made up of all of the above and more — selfless, motivated members of the Centre Region community who choose to do more, and be more, as Alpha Volunteer Firefighters or Fire Police Officers. Here are the basic requirements for membership:

- Be at least 18 years old
- Be a High School graduate or have a GED or equivalent
- Possess a valid driver's license
- Complete an application and background check
- Complete a pre-employment physical (all cost covered by the Firemans Relief Association of State College).

The Alpha Fire Police are lead by a Captain and two Lieutenants. These officers are responsible for Fire Police Command Operations at scenes and for ensuring that all fire police earn the proper certifications and are properly trained in both traffic control as well as some exterior fire ground operations.

Traffic Unit 5-1 & 5-2

The Alpha Fire Police serve an important role within the fire company. They supplement local police officers would when coming to the scene of an emergency. They:

- are among the faces of the Alpha Fire Company. When a resident arrives on the scene in a panic as their home and belongings are being destroyed by flames, we are the compassionate, initial contact that directs them into the scene safely.
- direct motorists around the scene of an accident or explain to them the reason for the delay. As best as we can, we provide information on alternate routes, recognizing that many people do not respond well to a change in their plans.
- assist local and state police with road closures, traffic control, crowd control, missing person searches, parade details, salvage, security, and other tasks as requested.
- provide traffic control and scene safety for our apparatus, firefighters and the public, assist with exterior fire operations as needed, and support the Fire Marshal's investigations.

Within 24 months of joining, you will attend and successfully complete courses in Basic Fire Police, Advanced Fire Police, Hazmat Operations, Emergency Vehicle Operations (EVOC), Fire Hydrant Operations, Blood Borne Pathogens, First Aid and CPR/AED. New members are introduced to the company and its operations by completing our Fire Police Pre-Emergency Response Training (PERT) program. In this program, you'll learn the basic structure of the Alpha Fire Company, the structure and role of the Fire Police, and be well prepared for state level training courses. Beyond initial training, members must meet modest annual training requirements from a combination of in-house and outside training.

Upon completion of our Fire Police PERT program, you'll be assigned to a Field Training Officer and will be introduced to all of the duties of the Fire Police in order to become a fully functioning team member who is capable of independently serving as a Fire Police Officer.
